Ref. No. ISO 787/23-1979 (E)

Descriptors : paints, pigments, tests, density measurement.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 787/23 was developed by Technical Committee ISO/TC 35, *Paints and varnishes*, and was circulated to the member bodies in March 1978.

It has been approved by the member bodies of the following countries :

Austria	Ireland	Poland
Bulgaria	Israel	Romania
Canada	Italy	South Africa, Rep. of
Egypt, Arab Rep. of	Kenya	Sweden
France	Korea, Rep. of	Switzerland
Germany, F. R.	Netherlands	Turkey
India	New Zealand	United Kingdom
Iran	Norway	Yugoslavia

No member body expressed disapproval of the document.
