

Lasers and laser-related equipment — Test methods for laser beam widths, divergence angles and beam propagation ratios —

**Part 3: Intrinsic and geometrical laser
beam classification, propagation and
details of test methods**

ICS 31.260

National foreword

This Published Document reproduces verbatim ISO/TR 11146-3:2004, including Technical Corrigendum February 2005. In conjunction with BS EN ISO 11146-1:2005 and BS EN ISO 11146-2:2005 it extends the scope of BS EN ISO 11146:2000, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CPW/172, Optics and optical instruments, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.
